

Agile Tour KL 2024

BETTER

Pre-Conference Class

From Traditional to Modern Revolutionizing Organizational Performance

Join us for an immersive, hands-on workshop to accelerate your organization's transition from traditional models to high-performance practices. Whether you're from FMCG, Construction, Manufacturing, Energy, or other sectors, this workshop offers strategies to foster innovation, enhance collaboration, and drive sustainable growth.

Beyond the excellent knowledge you will learn in this class, this is a great opportunity to network with peers from various industries and gain actionable insights tailored to create a high-performance environment.

Sincerely,

Chloe & Felipe

Pre-Conference Class

Oct 3rd, 2024

Connexion Conference &
Event Centre, Kuala Lumpur

MYR 699 For Conference Participants

MYR 899 General Tickets

Course overview

This full-day, pre-conference workshop is crafted for leaders and professionals from finance, construction, manufacturing, and beyond who are eager to transition to high-performance, Agile-driven operations.

Through a blend of expert insights, hands-on exercises, and personalized coaching, you'll learn how to navigate the complexities of modernizing your organization to foster innovation, collaboration, and sustainable growth. Through interactive sessions and personalized coaching, you will develop the capabilities needed to create a high-performance environment and leave with a customized plan for their organization's success.

Who should attend

This course is tailored for senior managements, decision-makers from various industries including FMCG, Construction, Manufacturing, and the Energy sector.

It is a fantastic course for Heads of departments responsible for driving organizational change, innovation, and performance improvement and professionals seeking to leverage the Agile methodologies to build a high-performance culture in their organizations.

Learning outcome

By the end of this course, participants will be able to:

- Have a clear understanding of how to effectively implement Agile
- Learn to identify and address key pain points, collaborate with control functions, and set measurable goals aligned with the organization's objectives.
- Craft a tailored, actionable plan for driving Agile success in your specific context.

Course agenda

Morning Session (9.30 am - 12 pm)

Session 1: From Traditional to High-Performance:

Learn how top FMCG, Construction, Manufacturing, and Energy organizations use Agile to achieve remarkable results. We will explore a few pain points, including:

- Slow
- Frustrating communication
- Layers of approvals/bureaucracy
- Work as a Silo
- Lack of transparency

Session 2: Building Essential Capabilities:

Identify and develop your organization's core competencies to thrive in today's fast-paced environment. The topics covered include:

- Work with Focus, delivery with quality
- From thinking to achieving
- Communicate and collaborate seamlessly
- Parallelize for speed
- Work structure to support a High-Performance Culture

Lunch Break (12:00 PM - 2:00 PM)

Afternoon Session (2 pm - 4.30 pm)

Session 3: Where & How to Begin?

Discover the optimal starting points for your company's unique needs and learn about the crucial starting steps to maximize your effectiveness.

Session 4: Setting Measurable Goal Setting & Aligning KPI

As the senior management in the organization, our participation is crucial to the success of this improvement. You will learn about the leadership role, what it involves, and how to do it effectively. You will also work on aligning leadership strategies with measurable goals to ensure long-term success.

You will also formulate your initial goals and KPIs under the guidance of Felipe and Chloe.

Session 5: Personalized Coaching by Felipe and Chloe

Receive tailored coaching from Felipe and Chloe to refine your approach and leave with a clear, actionable plan.

Felipe Engineer-Manriquez

Project Delivery Services Director, The Boldt Company,
Scrum Trainer, The EBFC Show

Felipe Engineer-Manriquez is a best-selling author, keynote speaker, Project Delivery Services Director for The Boldt Company, The EBFC Show podcast host, and proven construction change-maker from million to billion dollar-sized projects and companies worldwide implementing Lean and Agile practices.

Overcoming personal challenges of overworking and burnout, Felipe developed a keen interest in Agile and Lean Construction strategies for easier, better, and faster value delivery. As a Registered Scrum Trainer™, Master™, Product Owner™, and Scrum@Scale Practitioner™, he is exceptionally equipped to assist organizations in adopting agile practices.

Chloe O'Neil

Agile Coach
Scrum Inc. Japan

Chloe comes from a diverse background which has made her versatile and adaptable to multiple situations. Beginning her career as an engineer, she went on to become an agile coach where she helped scale Scrum from the ground up in a major sports entertainment company. There, she also worked as a product owner, tackling various scaling challenges along the way as the company expanded.

Originally born in Boston, Chloe is half Japanese and has lived in Tokyo and the US and is fluent in English and Japanese. Her distinct cultural background and language skills have been a key asset to Scrum Inc Japan. She believes in the power of teamwork and is passionate about making the work place more inclusive for women across Japan.
